THE GEORGIA PTCO
PRESENTS

**CHRISTMAS LIGHTS
OF GEORGIA 2021**

Your Christmas Lights Journey

The Georgia PTCO is proud to present this itinerary to some of the best Christmas lights displays throughout our wonderful town. While we couldn't fit ALL the light displays into one convenient trip without incurring a lot of backtracking and travel through seldom-used roads, the route presented to you here includes some of the best highlights in an easy-to-navigate format. You can expect this trip to take about an hour if you slow down at the major light displays and enjoy the sights.

The route is made available two ways: a printed list of directions (included with this printout), or a Google Maps itinerary that you can load by scanning the QR code on the printed map using your iPhone's camera or the Google Lens app. The printed list is useful if you don't have access to GPS navigation and you have someone in the passenger seat who can read the directions to you. The Google Maps itinerary will talk you through the entire trip.

Note that the Google Maps itinerary guides you through a series of destinations. These destinations aren't necessarily light displays, they're just convenient ways to make the trip follow most of a loop. When you arrive at each destination, simply tap the "next destination" button to continue the route until you get to the end. The light displays themselves should be very self-evident along the way.

No matter which method you choose, any kids in the car can follow along with the fun, printed map. We hope you enjoy this drive, Happy Holidays to all of our community members!
